Unseasonable weather for several weeks at the time that bulblets should have been planted this year, postponed their planting and as a result, medium size bulbs were not produced in sufficient quantities to list. Due to excessive and prolonged rains, our planting stock jumped up to large bulbs. We, therefore, list only large bulbs this selling season.

TERMS: Minimum order \$1.00. Prices prepaid in Continental United States.

Unless advised to the contrary when placing your order, we reserve the right, when sold out of large bulbs, to fill the order with equal value in medium size bulbs if available.

Early show reports indicate that our 1945 introductions are making good in a big way.

FILIGREE — First in recent introductions at both the Southeastern Michigan and Michigan Gladiolus Society Shows. It was also declared the best small R. I. and the best small one spike open at the SEMGS.

GNOME — First of recent introductions at SEMGS show, and its exhibitor says "Graceful stem, harmonious and pleasing set-up."

LADY BUG — First of recent introductions at SEMGS show, and the comment on this one was "Very graceful and attractive. A little honey."

SCARLET DAWN — Took second in recent introductions section of the MGS show and the exhibitor showing it writes "Was ready for the show one day too soon — this is a swell show Glad and it also has the greatest commercial possibility with all that good color showing."

RHODESIA — Bloomed too soon for the above shows but the report on this one was "Rhodesia is a perfectly beautiful thing in bud."

TANGIER — Bloomed too early for the shows but this was the comment, "Tangier is one of the nicest light smokys I have ever seen."

Watch the 1946 NEGS Year Book for our new introductions. We predict they will win their share of the blue ribbons in the years to come. There will be two light pinks in the F341 class, a beautiful white in the F401 class, a light pink in the I440, a beautiful, rich glowing purple in the I470, a gray color sport in the I486, and last but not least a beautiful white in the I501 class.

Show Stancer originations, and win your share of the blue ribbons.

1945 INTRODUCTIONS

FILIGREE — (*Kuhn*) (The Orchid x?). A Small Informal of entrancing beauty. Clear, creamy buff, pinkish-buff toward edges, 5-6 open, 4-5 in color, on a 14-18 bud spike. Florets ruffled and heavily lacinated. 3¼" - 3½" in diameter. Blooms in 60-65 days. Large or medium size bulbs only, \$3.00 each.

GNOME — (*Stancer*) (Snow Baby x Orange Butterfly). A beautiful Small Informal, light yellow. 5-6 open with 7-9 in color on a 14-16 bud spike. Florets 3¼"-3½" with plain petals. Slightly hooded. Excellent bulblet production and germination. Blooms to the tip when cut and placed in water. Few yellows do this. Blooms in 70-75 days. Large bulbs only, \$2.50 each.

LADY BUG — (*Stancer*) (Sandusky x Oberon). A real snappy Miniature Informal. Color light red with a distinctive white blotch. 4-5 open, with 5-6 in color on a 10-12 bud spike. Florets 2¾"-3", wide open, triangular, and slightly ruffled. Good producer of bulblets that germinate well. Blooms in 70-75 days. Plenty will be heard from this one. Large bulbs only, \$3.00 each.

RHODESIA — (*Stancer*) (Joyance x Hylas). Watch the blue ribbons roll in on this one. A Small Informal. Color a medium purple. 4-5 florets open with 6-7 buds in color on a 12-14 bud spike. Triangular, well opened, plain petaled florets, 3"-3¼" in diameter. Resembles Orange Butterfly in arrangement on the stem. Will bloom to the very tip when cut and placed in water. Blooms 70-75 days. Did not burn or bleach in the blast furnace winds of 1944. Large bulbs only, \$3.00 each.

SCARLET DAWN — (*Stancer*) (Red Phipps x Snow Princess). A brilliant sunrise. The dawn of a new day. A medium formal. Color scarlet with a snappy white blotch, feathered red. 7-8 open, 9-10 in color on a 16-18 bud spike. Florets 4¼"-4½" in diameter. Wide open slightly ruffled. Good propagator. Blooms in 75-80 days. Large bulbs only, \$3.00 each.

TANGIER — (*Stancer*) (Picardy x Charlemagne). A Large Informal. Those who liked Bagdad, will certainly fall in love with this one, as it resembles Bagdad, only it has a snappy blotch. Color, salmon smoky with sulphur yellow blotch, edged with deeper salmon. Throat stippled red. 5-6 open with 4-5 buds in color on a 16-18 bud spike. Florets plain petaled, 4½"-5" in diameter. Bulblet production excellent and germination good. Blooms in 70-72 days. Large bulbs only, \$2.00 each.
